Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Direct-from-Kettle Filling

Inline Filling Systems FP2-AS automatic piston filler has a special platform allowing for direct-from-kettle filling with alternating stroke single-head or two-head configuration.

Bottle management and filling sequence is electronically controlled entirely by the filling machine.

Features

10,000 containers per day
Intermediate automatic production
Dual head

Please [contact Pro Pac](#) or call 888-318-0083 for your liquid filling equipment.
