Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Lowest-Cost Filler with Simple Pneumatic Control

Inline Filling Systems FPMSEMI2 BT semi-automatic two head piston filling machine has higher output than a single head filler. Tis economically priced fully-automatic machine has excellent output and ability to expand capacity in the future.

Operator needed only for loading bottles. Bottle management and filling sequence is electronically controlled entirely by the filling machine.

Features

6,000 containers per day
Bench top semi-automatic production
