Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Lowest-Cost Filler with Simple Pneumatic Control

Inline Filling Systems FPD 4-12 automatic servo pump piston filling machine allows for maximum output and ability to expand capacity in the future.

Bottle management and filling sequence is electronically controlled entirely by the filling machine. Sophisticated bottle management and error controls allow sustained high-speed operation.

Features

40,000 containers per day
High-performance automatic production
