Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Designed for Manual Bottle Position under Fill Heads

Slide trays aid in manual positioning of containers under filling heads of semi-automatic fillers. They are manufactured entirely of stainless or fiberglass and plastic depending on the application environment. They are typically 8' in length and height adjustable from 32" to 40". All slide trays include adjustable conveyor railing and a manual bottle stop gate.

Please [contact Pro Pac](#) or call 888-318-0083 for your liquid filling equipment.
