Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Standard and Custom Turntables in All Grades of Stainless Steel

Slide trays and work tables aid in manual feeding, positioning and packing off of containers in both automatic and semi-automatic systems. These tables can also be used as a stable and mobile mounting surface for complete semi-automatic packaging systems. Inline Filling Systems designs and fabricates exactly the right workspace for both automatic and semi-automatic turnkey liquid filling systems.

Semi-automatic packaging equipment can be affixed to these tables allowing for flexibility of limited work-space. These work tables are designed for reduced range of operator motion and physical travel from one packaging operation to another.

Features

Custom fabricates work tables constructed out of stainless steel.

Fixed or mobile versions.

Bench-top semi-automatic production.

Please [contact Pro Pac](#) or call 888-318-0083 for your liquid filling equipment.
