Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Small, Portable Efficient Filler

Ideal for startup bakeries and smaller operations, Volumetric Technologies portable bench top piston filler is small in size and easy to operate. With numerous dispensing nozzles and other options to choose from, this quality machine is perfect for many liquid-fill applications.

Pair with the perfect dispensing nozzle to increase production and decrease product waste for a complete filling solution for your operation.

Bench Top Piston Filler Applications

Volumetric Technologies bench top piston filler / depositor is ideal for start-up companies, lab applications, bakeries, commissaries and other production environments.

Fill liquids, gels, fruit fillings, cream fillings, salsas, hummus, BBQ sauce, salad dressings, sauces, soaps, shampoos, personal care products, dips or spreads, essential oils, and many others.

Choose from numerous dispensing nozzle options for a variety of products including liquids and slurry products, and a host of options for the bakery industry for injecting doughnuts with fillings, applying rosettes or icing decorations onto pies, cakes or cupcakes with our hand held nozzles.
