Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

5-Axis Power Robotic Palletizer

The Fanuc M-410 series increases throughput on palletizing and handling applications.

With the best payload capacity of the range, this Fanuc M-410iB/700 robot will lift up to 700 kg, and is equipped with a hollow wrist to minimize the risk of cable snagging and reduce maintenance.

Pro Pac provides custom end-of-arm tools and configurations that seamlessly integrate with Fanuc robots and the needs of any packaging line.

Specifications

Max Payload: 700 kg

Reach: 3143 mm

Axis: 4

Features

No Risk of Cables Snagging or Wearing Internally routed cables and hoses prevent risk of snagging or wear on tough handling applications.

Highest Handling Capacity of the Series Specialist for large and heavy end-of-line palletizing of pallets weighing up to 700 kg.

Dedicated Design Increased throughput on palletizing and machine tool loading/unloading applications.

Unique Palletizing with Visual System Visual line tracking with Fanuc's unique plug and play iRVision for

easy locating and reliable picking of boxes.
