# Fanuc M-900iB/700E Palletizing Robot

## At a Glance

- Max Payload: 700 kg
- Reach: 2832 mm
- Axis: 6

## Pricing

Call us at 888-318-0083

Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Extended Robot Reach Meets High Robot Payload

The Fanuc M-900iB/700E robot is the latest model in the M-900 series of heavy-duty robots with payload capacities ranging from 280-700kg. The six-axis M-900iB/700E robot offers an enhanced wrist load capacity, large work envelope, a 700kg payload and long 2832mm reach.

Pro Pac provides custom end-of-arm tools and configurations that seamlessly integrate with Fanuc robots and the needs of any packaging line.

## Specifications

Max Payload: 700 kg

Reach: 2832 mm

Axis: 6

## Features

**More Wrist Capabilities to Handle Heavy Parts** An enhanced robot wrist load capacity provides more rigidity and force to efficiently handle, stack, load or unload large and heavy parts such as EV batteries, construction components, and metal fabrications.

**Ultra-Heavy Payload Processing** Boasting the heaviest payload capacity of the range, this model will lift up to 700 kg within an 2832 mm envelope.

**Excellent Accuracy and Rigidity** Suitable for constant force applications such as routing, cutting, polishing, deburring.

**Rigid Body Enables Stable Transferring of Large Work Pieces** Ideally suited to the EV Battery, steel, foundry, automotive, plastics, beverages and construction industries.
