Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Robots for Handling Cosmetics, Food, and Pharmaceuticals Products

The Fanuc LR-10iA/10 compact 6-axis robot is designed for machine tending as well as a variety of picking applications found in warehousing and logistics markets. This Fanuc robot is an ideal solution for companies with limited floor space, as its slim arm fits into machine tools to load and unload parts.

Weighing just 46 kg, the Fanuc LR-10iA/10 robot mounts to the floor, upside down, or on an angle. This Fanuc robot is also very easy to mount to an AGV or other mobile platform to accommodate a variety of repetitive tasks or automate machines that are standing idle.

Specifications

Max Payload: 10 kg (up to 13 kg with restricted envelope)

Reach: 1101 mm

Axis: 6

Helping Solve Labor Challenges

The Fanuc LR-10iA/10 robot is a great solution to help manufacturers and distribution centers overcome obstacles associated with labor shortages, while improving throughput and reducing operating costs.

Slim Arm, Narrow Design

The Fanuc LR-10iA/10 robot's compact design makes for quick, easy, and economical installation for all mounting positions and on Automated guided vehicles (AGVs).
