Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Clean Type, High Reach Mini Robot

The clean room Fanuc LR Mate 200iD/7LC robot, high-performer for manufacturing and lab applications, this 6-axis version provides extra versatility with an increased reach. Like all Fanuc LR Mate robots, the LR Mate 200iD/7LC robot is available with a range of options including integrated intelligent vision and force sensing functionality and special application packages.

With a slim, entirely encapsulated design, Fanuc clean room robots - including Fanuc LR Mate 200iD/4SC and LR Mate 200iD/7LC long-arm robots - provide high flexibility, adding versatility to their ability to perform many types of clean room applications within compact cells.
