Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Wash-Proof Mini Robot

Built to get wet, this compact 6 axis Fanuc LR Mate 200iD/7WP wash-proof robot is ideal for wet environments and can be easily integrated into confined spaces and machines. Like other Fanuc LR Mate robots, the 200iD/7WP robot is available with a range of options including integrated intelligent vision and force functionality.

This Fanuc LR Mate 200iD/7WP washproof robot is ideal for use in wet environments and for high-pressure washing applications.

LR Mate Series Robots Highlights

IP67 Protection The Fanuc LR Mate 200iD/7WP robot has a waterproof wrist and IP67 protection on the J4 arm to work perfectly in environments involving dust, water jet and die cast. Get even more protection with optional IP69K.

Easy to Integrate with Sealed Mechanical Units The Fanuc LR Mate 200iD/7WP robot offers full flexibility with floor, ceiling, wall and angle mounting. With a compact design and sealed mechanical

units, the LR Mate 200iD/7WP robot integrates for robotic machine tending.

Compact Design, Maximum Space The Fanuc LR Mate 200iD/7WP compact design makes this washproof robot ideal for food, pharmaceutical, medical device, automotive and electronics industries. This Fanuc robot operates reliably in dusty environments or conditions involving oil mist.
