Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Robot with Outstanding Axis Speeds and Ultimate Precision

Designed specifically for handling applications, the Fanuc M-20iD/12L robot features outstanding axis speeds and ultimate precision within its class. This highly versatile Fanuc robot can handle large parts with its very long horizontal stroke.

To further maximize flexibility and open up a new range of manufacturing application possibilities, the Fanuc M-20iD/12L robot can carry additional tools weighing up to 12 kg.

Large hollow wrist To prevent the risk of snagging and cable wear, all cables are routed through the Fanuc M-20iD/12L robot's large 57 mm diameter hollow wrist and hollow arm.
