Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Fully Enclosed Powerlifting Robot

With a payload of 35 kg this Fanuc M-20iD/35 robot is designed for material handling of large parts. Equipped with outstanding axis speeds and ultimate precision within its class this Fanuc robot is suitable for a wide range of applications.

Specifications

Max Payload: 35 kg
Reach: 1831 mm
Axis: 6

Fully Enclosed Robot with Fast Speeds

Fully Integrated Cable Management The Fanuc M-20iD series robots features a fully integrated cable management system.

Large Hollow Wrist To prevent the risk of snagging and cable wear, all cables can be routed through the M-20iD/35 robot's large 57 mm diameter hollow wrist and hollow arm.

Protection Class IP67 The extra smooth surfaces of the Fanuc M-20iD series robots helps to minimize dust and dirt build up. With IP67 protection on its arm and wrist axis, this Fanuc robot is well suited for dirty applications such as grinding or deburring.
