Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Fast and Compact Robot

This high-speed 6-axis Fanuc M-2iA/3AL Delta robot is perfect for picking, packaging and assembly. The Fanuc M-2iA/3AL Delta robot's 3-axis wrist means it is capable of freely rotating workpieces and tools as required for assembly applications. The Fanuc M-2iA/3AL Delta robot's clever design makes best use of available workspace.

Specifications

Max Payload: 3 kg

Reach: 1130 mm

Axis: 6

Best-In-Class Robotic Articulation

Highlights

Unique 6-axis structure

Wrist with fast rotate motion

IP69K protection

High-reliability design

Common installation and wrist interface with 4 axis types

Common motion area with 4 axis types

Best-in-Class Full Articulation The long-arm Fanuc M-2iiA/3AL Delta robot is equipped with a 3-axis

articulated wrist for applications that demand high levels of flexibility from delta robots. This wrist enables it to achieve best-in-class full articulation.

Ideally Suited to Assembly Fanuc M-2iA/3A Delta robots come with a 3 kg payload and six-axis design. This makes these robots ideally suited to picking and assembly operations.
