Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Fast and Compact Robot

The ultra-compact Fanuc M-2iA/3SL Delta robot sits at the cutting edge of high-speed small parts handling. Huge reach and IP69K protection as a standard feature makes Fanuc M-2iA/3SL Delta robot the ideal solution for more productivity in wet and clean room environments.

Featuring up to 6 axis, this Fanuc M-2iA series of high-speed assembly robots offers infinite flexibility with ultra-variable mounting positions and human hand-like versatility.

## Specifications

Max Payload: 3 kg

Reach: 1130 mm

Axis: 4

## Best-In-Class Robotic Articulation

**Increased Reach** This long arm 4-axis Fanuc M-2iA/3SL Delta robot is ideal for clean room applications that require an extended envelope.

**IP69K Wrist Protection** With IP69K protection as a standard feature, capable of withstanding high pressure steam cleaning, this Fanuc M-2iA/3S Delta robot is suitable for clean room environments.

**Fast and Powerful Operations** Benefit from high productivity and short cycle times with this robot's fast accelerating servo motors.

**Standard Hollow Wrist Design** Straightforward protected cable routing of air and customer signals through the robot arm to the tool.

**High-Speed Picking and Placing** Fanuc M-2iA Delta robots pick and place containers at 182 parts per minute.
