Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Fast and Compact Robot

Offering maximum cable protection with its hollow wrist, this 3-axis Fanuc M-2iA/6H Delta robot is not only ideally suited to wet environments but offers greater flexibility with its extensive work envelope. Capable of high speed operation, the Fanuc M-2iA/6H Delta robot makes a good choice for picking and packing processes.

Specifications

Max Payload: 6 kg

Reach: 800 mm

Axis: 3

Ultra-High Speed Picking and Packing Robot

3 Axis for Flexibility and Speed With no wrist rotation, this 3-axis Fanuc robot is the answer to all your ultra-high speed picking and packing operations needs.

IP69K Protection as Standard With IP69K protection as a standard feature and capable of withstanding high-pressure steam cleaning, this Fanuc robot is suitable for clean room environments.

Optional High Inertia Mode Ideal for reducing cycle times on operations involving the handling of multiple or larger items, the high inertia mode option increases payload from 3 kg to 6 kg.
