Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## High-Speed 6-Axis Delta Robot

This high-speed 6-axis Fanuc M-3iA/6A Delta robot is perfect for picking, packaging and assembly. The Fanuc M-3iA/6A Delta robot's 3-axis wrist means this robot is capable of freely rotating workpieces and tools as required for assembly applications. The M-3iA/6A robot's clever design makes best use of available workspace.

## Specifications

Max Payload: 6 kg

Reach: 1350 mm

Axis: 6

## Flexible Robot Handles Parts and Complex Assembly

**Robot Increases Useable Workspace** The Fanuc M-3iA/6A Delta robot's 3-axis wrist enables feeding parts in from different sides of the workzone, increasing useable workspace.

**Food Handling Option** Lubricated with food-grade grease, the Fanuc M-3iA/6A Delta robot features a special coating to handle acid and alkaline disinfectants, and low-pressure rinsing.

**Unique Delta Design with Flexible 3-Axis Wrist** The extreme human-like flexibility offered by the 3-axis wrist enables the Fanuc M-3iA/6A Delta robot to pick up and insert parts at simple or compound angles, and twist parts into place.
