Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Robot for High-Speed Transfer Operations

Combining speed with a wide work envelope, the Fanuc M-710iC/45M robot is ideally suited for high-speed transfer operations when fitted with a drive enhancement unit. This Fanuc robot's compact design and slim wrist make this robot a great choice for handling operations where space is at a premium.

Specifications

Max Payload: 45 kg

Reach: 2606 mm

Axis: 6

Robot for Handling Pallets Across a Large Work Area

Increased Work Envelope Offering a 2606 millimeter reach, the long arm on the Fanuc M-710iC/45M robot makes this robot suited to handling pallets across a larger work area.

Compact Design The Fanuc M-710iC/45M robot's slim body and compact wrist provide maximum flexibility across a range of applications where space is an issue. Multi-direction operation is provided by a full 360 degrees of rotation from J1.

Inverted Mounting Available Floor, upside down and angle mounting options for maximum flexibility.

Full IP67 Protection Available Protection of the complete M-710iC/45M robot wrist and body against water and dust is made for harsh environments.
