# Fanuc M-800iA/60 Pick-and-Place Robot

## At a Glance

- Max Payload: 60 kg
- Reach: 2040 mm
- Axis: 6

## Pricing

Call us at **888-318-0083**

Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Robot Significantly Improves Quality and Accuracy

The Fanuc M-800iA/60 robot's outstanding path accuracy for high accuracy path applications allows manufacturers to significantly improve the quality of laser cutting, welding, or in general processes with a very high demand on accuracy. The M-800iA/60 offers outstanding precision without slowing down the production process.

## Specifications

Max Payload: 60 kg

Reach: 2040 mm

Axis: 6

## Robot Delivers Precise Accuracy

**High Precision** With high rigid and robust construction, the Fanuc M-800iA/60 robot offers great performance regarding accuracy.

**Absolute Precision Accuracy** The calibration technology Fanuc iRCalibration Signature is included as a standard.

**High Performance** Great motion performance, especially in narrow corners, makes the Fanuc M-800iA/60 robot ideally suited for high accuracy path applications like 3D laser cutting.
