Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Fill Pouches Automatically

The Bartelt BPM-6 is a compact, 6-station rotary pre-made pouch machine designed for businesses seeking a high-performance packaging solution at a budget-friendly price. With a space-efficient design and the ability to run at speeds of up to 30 pouches per minute, the BPM-6 is perfect for moderate production requirements, handling between 1 and 5 million units annually.

This BPM-6 pouching machine excels in industries such as household chemicals, pet care products, grains and cereals, and nutraceuticals, offering flexible packaging solutions that accommodate a variety of pouch types, including stand-up pouches and flat sachets.

Built to minimize costs without sacrificing quality, the Bartelt BPM-6 is an ideal choice for businesses looking to enhance their packaging operations without exceeding their budget.
