Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Automatically Fill and Pallet Large Pre-Made Pouches

Matrix Cetec large-format duplex pouching systems are designed to weigh, fill, seal, wrap, and palletize large pre-made pouches - all in one system!

Matrix Cetec large-pouch systems run powders, granulates, and piece products for paper or plastic pre-made pouches.

These fully-automated pouching machines efficiently work with multiple bag styles, several filling options, and multiple pouch closing capabilities. Final wrapping and palletizing choices complete a customized packaging line.

## Features & Benefits of this All-in-One System

Stainless steel

Re-gusseting for better seal quality on shaped or vacuum bags

Mechanical assemblies

Full length side rails

Walking beam side fingers

Indexing conveyor

Squaring of front & side panels

Can handle powders, grains, and pieces

Handles multiple bag styles, fillers, closing options and final wrapping and palletizing options

Simplex or Duplex packaging machines available
