Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Center Spout Pouch Filling and Capping

The Matrix Pacraft TT-15CW-10 pouch filling and capping systems are designed for center-spout stand-up, gusset, and flat pouches.

The TT-15CW-10 pouching system combines automated spout insertion with filling to increase efficiencies and lower packaging costs. This pouching system utilizes a specially-developed nozzle that provides high-speed filling through the spout to reduce pouch top seal contamination.

An easy-to-use pouch stock rail simply snaps in place to supply pouches. Optional pouch stockers are also available.

Common Applications

Center spout pouches
Snack drinks
Shampoo
Liquid detergent
Sauce

Please [contact Pro Pac](#) or call 888-318-0083 for your pouching equipment.
