Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Extremely Versatile Pouching System

FL Tecnics compact FL 1.4B & FL 1.7B rollstock pouching machines incorporate the newest generation of electronic components and mechanicals. These robust, reliable pouching systems offer the same features as FL Tecnics bigger series: quick and easy changeover, filling accuracy, and perfect package finishes.

The FL 1.4B and FL 1.7B pouching machines are extremely flexible, handling a wide range of formats and sizes including: 3-4 sides sachets, single or twin, central perforation, running simplex or duplex configurations.

Features & Benefits

Low maintenance costs
Highly-flexibile
Robust stainless steel construction
Latest technology and software
Remote access

Expanding Reel Shaft
Easy reel loading
Measuring ruler and end of reel sensor
Pneumatical pressure adjustment

Easy and Fast Change Over

Pneumatic control of film tension
Motorized bottom and vertical sealing bars
Monoblock group formed by motorized film feed unit and scissors
HMI recipes screen

Efficient Pouch Opening System
Mechanical pouch opening group combined by 3 systems
Top suction cups
Blowing tube
Mechanical pouch lineal closing grippers

Machine Frame In Stainless Steel AISI 304
Sanitary design, frontal plate without housings and without exterior orifices
In compliance with pharma & food requirements
Robust and stable, vibration free while running
Frontal plate 20 mm thick

Different Product Fillers
Piston filler pneumatic or servo driven
Auger filler
Volumetric filler
Counting system
And more

Solid Filling Systems

For powders, granulates & pieces
Auger filler, volumetric cup filler lineal and rotary
Multi-head & lineal weighers
Counting filling systems
Customized fillers for special applications

Liquid Filling Systems

For liquid and pasty products
Endress+Hausser, Bopp & Reuther mass and magnetic flow meters
Piston fillers with pneumatic or servomotor operation
Customized fillers for special applications
Standard innovative system of filling correction in real time on all flow-metering dosing systems

Pouching Machine Configuration

Model	FL 1.4B			FL 1.7B			
	Min mm	**Max mm**	**Max cc**	**Min mm**	**Max mm**	**Max cc**	**Max ppm**
FLT 1	50 x 50	140 x 200	200	50 x 50	170 x 200	250	110
