# FL Tecnic FL 1.4B & 1.7B Rollstock Pouching Systems

## At a Glance

- Compact, robust & durable pouching machinery
- Efficient pouch opening system
- Different product fillers
- Easy and fast change over

## Pricing

Call us at 888-318-0083

Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Extremely Versatile Pouching System

FL Tecnic compact FL 1.4B & FL 1.7B rollstock pouching machines incorporate the newest generation of electronic components and mechanicals. These robust, reliable pouching systems offer the same features as FL Tecnic's bigger series: quick and easy changeover, filling accuracy, and perfect package finishes.

The FL 1.4B and FL 1.7B pouching machines are extremely flexible, handling a wide range of formats and sizes including: 3-4 sides sachets, single or twin, central perforation, running simplex or duplex configurations.

## Features & Benefits

Low maintenance costs

Highly-flexible

Robust stainless steel construction

Latest technology and software

Remote access

### Expanding Reel Shaft

Easy reel loading

Measuring ruler and end of reel sensor

Pneumatically pressure adjustment

### Easy and Fast Change Over

- Pneumatic control of film tension
- Motorized bottom and vertical sealing bars
- Monoblock group formed by motorized film feed unit and scissors
- HMI recipes screen

### Efficient Pouch Opening System

- Mechanical pouch opening group combined by 3 systems
- Top suction cups
- Blowing tube
- Mechanical pouch lineal closing grippers

### Machine Frame In Stainless Steel AISI 304

- Sanitary design, frontal plate without housings and without exterior orifices
- In compliance with pharma & food requirements
- Robust and stable, vibration free while running
- Frontal plate 20 mm thick

### Different Product Fillers

- Piston filler pneumatic or servo driven
- Auger filler
- Volumetric filler
- Counting system
- And more

## Solid Filling Systems

- For powders, granulates & pieces
- Auger filler, volumetric cup filler lineal and rotary
- Multi-head & lineal weighers
- Counting filling systems
- Customized fillers for special applications

## Liquid Filling Systems

- For liquid and pasty products
- Endress+Hauser, Bopp & Reuther mass and magnetic flow meters
- Piston fillers with pneumatic or servomotor operation
- Customized fillers for special applications
- Standard innovative system of filling correction in real time on all flow-metering dosing systems

## Pouching Machine Configuration

Model	FL 1.4B			FL 1.7B			
	Min mm	Max mm	Max cc	Min mm	Max mm	Max cc	Max ppm
FLT 1	50 x 50	140 x 200	200	50 x 50	170 x 200	250	110
FLT 2	45 x 60	70 x 200	50	45 x 50	85 x 200	70	180
