Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Produces Small Flat or Stand-Up Pouches with Zippers or Spouts

FL Tecnicos FL 1.4 & FL 1.7 HFFS rollstock pouching systems are highly-versatile and flexible with robustness and mechanical reliability that comes with a 3-year warranty.

The modular design offers multiple options for pouch styles: flat, standup pouch, with zipper or spout, in simplex or duplex versions, and a variety of sizes.

FL Tecnicos BV pouching models offer the versatility for corner and top spout pouches using the same applicator.

Features & Benefits

Low maintenance costs
Highly-flexible
Robust stainless steel construction
Latest technology and software
Remote access

Zipper Applicator

Adaptable zipper module applicator
Stainless Steel AISI-304

Variety of zipper profiles or Velcro
Easy to adjust for different formats

Forming Triangle with Motorized Film Alignment System

Motorized monobloc system
Perfect film alignment
Alignments in real time (every machine cycle)

Top & Corner Spout Applicator

Independent and motorized modular spouts applicator
Easy to adjust, during machine operation
Corner and top spout with the same applicator
Spout elevator

Multiple Filling Stations

Up to three filling stations
Combination of different filling systems
Versatility: Multi-ingredients products

Options

Zipper applicator
Spout applicator
Multiple filling stations

Solid Filling Systems

For powders, granulates & pieces
Auger filler, volumetric cup filler lineal and rotary
Multi-head & lineal weighers
Counting filling systems
Customized fillers for special applications

Liquid Filling Systems

For liquid and pasty products
Endress+Hausser, Bopp & Reuther mass and magnetic flow meters
Piston fillers with pneumatic or servomotor operation
Customized fillers for special applications
Standard innovative system of filling correction in real time on all flow-metering dosing systems

Pouching Machine Configuration

Model	FL 1.4			FL 1.7			
	Min mm	Max mm	Max cc	Min mm	Max mm	Max cc	Max ppm
