Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Highly-Readable Large-Format Alphanumeric Codes and Messages

FoxJet VxJet 9x printheads are designed to work with the Marksman HMI controller.

VxJet IDS and VxJet 18x printheads maximum system configurations deliver highly-readable large-format alphanumeric codes and messages.

Print 0.5" to 0.875" characters up to 650 feet per minute on porous or non-porous surfaces.

VxJet 9x printheads feature a solid die-cast aluminum housing and an environmentally sealed printhead for continued maximum performance in the most challenging environments.

The dot size adjustment feature allows you to adjust each individual dot on the printhead, maximizing the ink usage and providing optimal print quality.

Compatible with: corrugate, wood, gypsum, plastic, metal, PVC and more.
