Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Simple State-of-the-Art Case Coding

The FoxJet ProSeries Enhanced 384E high-resolution ink jet case printer prints high-contrast, high-quality barcodes. The ProSeries 384e allows manufacturers to produce scan-able and verifiable barcodes at the highest available speeds to achieve maximum throughput. With a 2" maximum print height, the ProSeries 384e model accommodates the tallest barcode standards and requirements.

Featuring industry leading ink throw distances, the ProSeries Enhanced printers offer the most forgiving distance tolerances between the printhead and product being marked as well as ensure maximum print quality on irregular surfaces.
