Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

One 10" Touchscreen Controller for Two Production Lines

The FoxJet Marksman Matrix is a flexible stand-alone industrial controller that is capable of operating two production lines simultaneously and up to four printheads. The Marksman Matrix controls FoxJet ProSeries printheads to print industrial compliant barcodes, graphics, and alphanumeric characters on porous materials and cases.

Features

10" color touch screen features a clear, uncluttered and easy-to-use interface

Windows-based programming allows for easy user interface and easy message creation

Pop-up keyboard appears for editing and message creation with larger keys that reduce keying errors by 25%

On-screen 3D views feature your package for enhanced message creation

Standard True Type and Unicode Fonts pre-loaded so users can immediately create messages

Stainless steel enclosure provides maximum reliability in harsh environments
