Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Dual Photo Sensors for Perfect Thermal Printing

The FoxJet SoloSeries 90 thermal ink jet printer delivers the high-resolution printing you need at the price you want. This ink jet printer features two sets of photo sensors to ensure thermal jet message prints perfectly each time.

Features

Dual ink cartridges allow for stitching of text, logos and barcodes up to 1" in height

Unique cartridge stitching design eliminates complicated calibration routines

Three controller options: PC-based (with included software), Solo Handheld or Marksman Duo IPC

Up to 10 vertical lines of print

Font heights include 1", 3/4", 1/2", 1/4" and 1/10"

Prints logos and barcodes including various 1D types and the 2D data matrix code

Fully-featured software including built-in autcodes, such as date, time, count and expiration

Compact, rugged enclosure with hinged cover to protect pen and allow for easy replacement

Serial port at printhead for flexibility

Purge button for easy cleaning of cartridge

In/Out port for daisy chaining up to four thermal cartridges

Ink level detection which ensures optimum print quality, exclusive to FoxJet branded ink cartridges
