Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Highly Reliable Thermal Jet High-Resolution Printing

The Little David MicroJet HRP 1" is a reliable, low cost ink jet printhead capable of printing up to 10 lines of data including alphanumerics, logos, and UPC-A bar codes onto porous or non-porous surfaces.

The HRP 1" offers highly reliable thermal jet technology, high-resolution printing, easy-to-change ink cartridges, and a wealth of industrial-grade performance features. In short, this printer is a great value for many marking and coding applications.

Loveshaw's MicroJet HRP Thermal Jet Printhead is constructed of an enclosed, industrial-grade housing with stainless steel faceplate and built-in photo sensors to detect product speed and direction. The Smart Level Ink Detection System of the MircoJet HRP provides the user with "ink low" and "ink out" status of Loveshaw ink cartridges. Loveshaw ink cartridges are simple to snap-in and snap-out for easy ink replacement.

Ink cartridges are not included with printhead unit. Cartridges can be purchased at time of printhead order or anytime after.

As a licensed HP partner, Loveshaw has designed and engineered a thermal jet printhead that is industrial, low-cost, easy to use and truly unique in the product identification marketplace today.

Benefits

Complete System Microjet HRP 1 printer is ready to run right out of the box. The unit comes with mounting bracketry, necessary cables and software. Ink cartridges are not included with unit.

Industrial Design Stainless steel faceplate and sealed printhead ensure durability in the most demanding environments.
