Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Heavy-Duty Printing Applications

Designed for medium to heavy-duty applications, the Markem-Imaje 9410 inkjet coder reduces your total cost of ownership with quality printed codes.

Benefits

Print More Efficiency built in, thanks to its improved design and ease of use.

Smart Design. TCO Included Up to 20% reduction in consumable use and energy consumption. Optimized waste related expenses.

99.9% Availability Secure the initial performance of your equipment for 36, 48, or 60 months via the customized service packs.

Easy and Mistake Proof Operation Clean and secure, our innovative cartridge system requires no set-up and eliminates consumable management errors.

Hygienic Design Efficient wash down (IP55). Clean it with water and industrial detergent and make sure your hygiene standards are met.

Increase Your Printing Capabilities

Promote Your Brand Print a QR code to promote your brand and generate website traffic.

Large Choice of Codes and Languages Text, logos and 2D barcodes, etc. available in 35 languages.

Inks that Help Achieve Your Traceability and Sustainability Goals Ink references with a high level of adhesion, contrast and color where needed as well as anti-counterfeiting solutions and environmentally-friendly inks.

Prevent Product Recalls and Waste

Enhanced and Proven User Experience The experience starts with the tip of your finger directly on the color touch screen.

Configure the Job and Lock It Your local language online guiding system will lead you through the steps to ensure your code is exactly what you want it to be.

Track Your Running Costs Easy access to maintenance and production history.

Master Your Data Input Operator access and password management can be configured to your needs offering more control.

Centrally Manage Codes Create images and network printers with optional CoLOS software.

Long-Term Coding Solution

Adjusts to Changing Packaging Types Whatever packaging type you need to code now or in the future, this coder can do it: Plastics, cardboard, metal, foil, paper, glass etc. It even offers a competitively priced MEK-free solution.

Extended Connectivity Capacity Easily links to the market-leading CoLOS information management system so you can manage one or more coding devices through a single computer.

Code with Confidence Ensure excellent performance and peace of mind with an array of genuine Markem-Imaje after-sales services. Offering includes: - Spare part kits - Consumables solutions Service packages including: - Start-up packages - Extended warranty contracts - Service exchange programs - All-inclusive agreements

Operations
