Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Simple, Clean, Quick Bagging System

Combine a [Speedy Bag Packager](#) with drop sealer for a simple, clean and quick packaging system. With one simple motion, the operator slides the product onto the bag packager tray, into the already-opened bag, and into the drop sealer. The drop sealer seals the package automatically or manually by foot switch.

Features of the Bag Packager with Drop Sealer

Seals wicketted, non-wicketted, lip type, flush cut, saddle pack, and flap type bags

Handles bags 2"-16" wide and 4"-22" long

Heavy-duty construction with welded and painted steel with stainless steel contact surfaces

SBP stainless steel models available

USDA approved

Available Seals

Smokeless and odorless bead trim.

1/8" Smokeless, odorless seal and trim.

1/8"-1/4" Seal and trim.
