Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Heavy-Duty Stainless Steel Pneumatic Wicket Bagger

The SBP-SS-AA-16 is APM's premier bagger. This all air pneumatic bagger automatically blows open the top wicketed bag while the operator loads the tray then slides the product through the custom guides and into the bag in seconds. Designed for the harshest of environments, the SBP-SS-AA-16 can open over 35 bags per minute for high production applications.

## Features

- Heavy-duty 304 stainless and aluminum construction
- 18-8 hardware throughout
- 440C linear guide rods
- Quick-release bag reservoir for reloading bags
- Coalescing filter removes air particles
- Excellent for those hard to open shrink bags

Please [contact Pro Pac](#) or call 888-318-0083 for your bagging equipment.
