Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Horizontal Conveyorized Band Sealer with Bag Trimmer

The APM HCBS-1/8 CT horizontal sealer provides excellent reliable bag sealing. This sealer produces a tight secure sealed bag made from polyolefin and PVC shrink films that require precise temperature controls to create a consistently tight package every time. With a synchronized support conveyor and precise temperature controls, this bag sealer produces securely sealed bags. The unique trim after seal system assures clean, straight trim directly at seal edge.
