Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Stainless Steel Bag Sealer for Food Facilities

The APM ATS-SS-711 is a stainless steel table-top bag sealer specifically designed to meet the needs of commissaries and other food manufacturers and distributors. Seal and trim bags filled with sandwiches, baked goods, prepared foods, and more.

Features of the ATS-SS-711

- Smokeless and odorless bead trim seal
- Seals polypropylene without angel hairs
- Adjustable seal dwell timer for sealing various types of materials
- Preheat design, no warm up time required
- Adjustable front feeder tray
- Scrap removal and scrap net
- Dual blow-off tubes enable operator to seal two products simultaneously
- Stainless steel construction includes chassis, product shelf, bottom panel, 16" upper jaw, and seal assembly
- Heavy duty IP68 rated foot pedal switch
- Mounted air regulator and filter
- Air cylinder rod boots that promote internal cleanliness
