Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Hermetically Seal 1.5 lb Bags up to 600" per Minute

QuantumPak Q600 continuous band sealer hermetically seals bags and pouches at speeds up to 600" per minute.

The Q600 band sealer hermetically seals a wide variety of bag styles made of nearly any kind of material including metalized laminates, paper laminates, and a variety of plastic materials.

This band sealer can carry bags weighing up to 1.5 lbs. Easy-to-use digital controls for the temperature and speed and can be adjusted to accommodate a wide variety of material, ensuring reliable seals.

The QuantumPak Q600 is built for 24/7 operation in a wide variety of industries.
