Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Hermetically Seal 15 lb Bags up to 500" per Minute

QuantumPak Q800CG continuous band sealer hermetically seals bags and pouches with gas flushing system to provide longer shelf life for food products. This Q800CG seals at speeds up to 500" per minute.

The Q800CG band sealer hermetically seals a wide variety of bag styles made of nearly any kind of material including metalized laminates, paper laminates, Tyvek, and a variety of plastic materials.

This band sealer includes a 7" wide x 6' long product conveyor and can carry and seal bags weighing up to 15 lbs. Larger conveyors and a heavy duty vacuum/gas flush system is available for large bags including bag in a box applications.

This band sealer with conveyor can carry bags weighing up to 15 lbs.

Easy-to-use digital controls for the temperature and speed and can be adjusted to accommodate a wide variety of material, ensuring reliable seals.

The QuantumPak Q800CG is built for 24/7 operation in a wide variety of industries.
