Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Gas Flush and/or Vacuum Seal Bags Weighing up to 100 lbs

QuantumPak Q800CGHD continuous band sealer with a heavy-duty conveyor gas flushes and/or vacuum seals bags weighing up to 100 lbs at speeds up to 500" per minute.

The Q800CGHD band sealer hermetically seals a wide variety of bag styles made of nearly any kind of material including metalized laminates, paper laminates, Tyvek, and a variety of plastic materials.

Easy-to-use digital controls for the temperature and speed and can be adjusted to accommodate a wide variety of material, ensuring reliable seals. The extra-tall frame, and a variety of extra wide conveyors make the Q800CGHD ideal for large bags or bag in the box applications.

The QuantumPak Q800CGHD is built for 24/7 operation in a wide variety of industries.

Features

- Gas flushes or vacuum seals bags up to 100 lbs
- Synchronized 12" wide x 10' long product conveyor
