Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Seal Bags and Pouches Lying Flat in Horizontal Position

The QuantumPak Q800P high-performance industrial bag sealer is designed for sealing large or oversized products that must remain flat during the sealing process.

With its parallel design, the Q800P ensures smooth, consistent seals on items such as pizza crusts, tortillas, flatbreads, and other products requiring extra-long seams.

Engineered for speed, precision, and durability, the Q800P offers the same rugged construction and user-friendly features as the QuantumPak flagship Q800 sealer. The Q800P sealer provides enhanced capability for wide-format or heavy packages with easy-to-use controls, fast changeovers, and dependable sealing integrity across a variety of packaging films.

Boost production efficiency, accommodate oversized products, and maintain strict quality standards, the QuantumPak Q800P delivers unmatched versatility and performance. Like all QuantumPak sealers, the Q800P is built to grow with your business — ready for customization and expansion as your needs evolve.

## Features

Maximum speed of 800" per minute

Capable of handling large, flat bags

Right-to-left flow as standard
