Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Count, Accumulate, Transfer, and Package Plates

Automatic Rennco Plate Infeed Systems integrate with the manufacturing lines of paper, thermoformed, and foam plates. Rennco Plate Infeed Systems count, accumulate, transfer, and package plate products.

Plate counts range from retail packages of 25 count to bulk packages of 250.

Different infeed systems are available for retail or bulk packages. With the retail system, a single seal arrangement or dual arrangement is available depending on upstream speeds.

With extraordinary precision, this system completes your plate packaging requirements.
