Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Dual Lane Shrink Bundler for the Health and Beauty Industry

The nVenia Arpac 708HBD-32 shrink bundler is designed specifically for today's health and beauty industry.

Ultra-compact in design and economical in price, the 708HBD-32 is capable of shrink wrapping up to 60 bundles per minute in the dual lane configuration. This machine offers the flexibility of running in a dual lane mode for higher output, or in a single lane mode to accommodate wider bundles.

The 708HBD-32 uses motorized pulleys rather than separate drives and chains. This allows for clean, safe operation and a slimmer frame.

Features

- Compact single-frame stainless steel construction
- Heavy-duty system for around-the-clock operation
- Laser cut and CNC machined components for maximum precision and strength
- Right or left-hand mounted infeed and controls
- Allen-Bradley programmable logic controller
- Arpac operator interface featuring an alphanumeric message display and self-diagnostics
- Simple setup and tool-less changeovers for ease of use and minimal downtime
- Low maintenance conveyor belts do not require tracking adjustments
- Motorized pulleys eliminate chain drives and operate more cleanly, with reduced maintenance cost and

less noise
Single stage right-angle infeed conveyor with Intralox belt
Telescoping tunnel conveyor
Bridge plate for small product transfer
Conveyor elevation 35" +2/-0 for easy integration with existing equipment
Powered film unwind
NEMA 12 electrical cabinet and controls
Low film alert warns that a film changeover will soon be necessary
Quick-change seal bar with military-type quick disconnect and replaceable plasma coated inserts
Product hold-down for light products
Top and bottom film racks accomodate four 14" diameter rolls of film
Easy to service air cylinders
Separate pop-up guide and multiple ram stroke programming for multi-row collation
No lubrication required for clean and easy maintenance
Levelers for uneven floors

Example Products

Beauty products
Vials
Cosmetics
Spices
Glass bottles
Spray cans
Boxes
Plastic bottles

Machine Specifications

Speed: Up to 50 packages per minute
Electrical: 208, 230 or 460 VAC, 3 Ph, 60Hz
Air: 80 psi, 8 SCFM

Product Specifications

Width (across machine): 3.5" - 10.5"
Length (flow direction): .75" to 10"
Height Range: .5" to 8"

Film Specifications

Roll Diameter: Up to 14"
Gauge: Up to 3 mil
Roll Width: Up to 16" (dual roll), 20" (single roll)
Type: Polyethylene
