Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Shrink Bundle Multi-Packs of Dairy Products

The Arpac AGR Series shrink bundler is specifically designed and built for dairy and food processing. This compact, right-angle shrink bundling system collates and over-wraps multiple arrangements of scrouds, rounds, squares, pints, quarts, cans and other food containers in a single or dual lane configuration.

Ideal for washdown environments, this single frame, heavy-duty stainless steel system, with NEMA 4X electrical cabinets and controls, is designed and built in compliance with food industry standards. Smooth product transfer and product stability is ensured with a product transfer bridge and product hold down feature.

The Arpac AGR Series shrink bundler is manufactured in the USA in accordance with Arpac's Lean Manufacturing Process (AM2) to ensure quality, performance and value.

## Features

Low profile, compact, single frame construction designed for around-the-clock operation

Heavy-duty structural stainless steel frame for wash down environments

Stainless steel mesh guarding with safety switches

Independently driven film feed rollers with easy threading feature

Dual roll top and bottom film cradles

Central point lubrication (nylon lines) simplifies preventative maintenance

Allen-Bradley MicroLogix PLC

Allen-Bradley PanelView 600 Plus operator interface with color touch-screen with message display and self-diagnostics

NEMA 4X electrical controls and cabinets

Low film alert warns that a film changeover will soon be necessary  
Independently driven (AC VFD) conveyor belts  
Servo driven main ram  
High precision heavy duty seal frame with seal bar safety sensor  
Quick change seal bar with coated seal inserts  
Product hold-down for light products  
Transfer bridge plate for smooth product transition through seal gap  
Easy access pullout heater elements  
Heavy insulated high velocity shrink tunnel  
High temperature plastic, sprocket driven tunnel belt  
Cooling section at tunnel exit for immediate product handling  
Levelers for uneven floors  
Operator manual with maintenance, safety and operating procedures
