Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Shrink Tunnel with Much Lower Energy Costs

The Arpac ECO-Tunnel shrinks bundles using nearly 50% less energy than any other tunnel in the market with patented technology. Compared to other tunnels this tunnel has a small footprint and creates pristine bulls-eyes.

Capable of running clear or print registered film with adjustable tunnel interior for maximum heat efficiency. It can be either PLC controlled with its own HMI screen equipped on the tunnel or the programming can be integrated into the packaging machine before the tunnel.

Features & Benefits

- Up to 50% energy savings!
- Runs clear or printed LDPE films
- Adjustable tunnel interior for maximum heat efficiency
- Cutting edge insulation
- Pristine bullseye
- PLC controlled
- Ultra quiet operation
- Closed PID loop temperature control (+/- 1°)
- Cool Touch guarding
- Even heat for minimal print distortion
- Small footprint

Machine Specifications

Chamber Dimensions: 83"L x 22"H x 14"-28"W

Conveyor Dimensions: 26"W x 148"L

Electrical: 460VAC, 3 Phase, 60 Hz

Conveyor Speed: Up to 56 Feet per Minute

Heaters: 42 kw

Film Specifications

Film Width: Up to 25"

Thickness: 1.75 mil to 2.25 mil

Clear or Printed LDPE
