Eastey Performance Series Shrink Bundling Tunnels

At a Glance

- All-welded main frame from 12 gauge steel
- Sealed bearings (not bushings) on drive and idler shafts
- Adjustable digital solid state temperature control
- 39 inch chamber length
- Heavy-duty industrial design and construction for trouble-free service and long life
- Made in the USA

Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Rugged Shrink Bundling Tunnels at Lower Prices

Proven reliable over and over again, these Eastey bundling tunnels provide you with all the quality features found in much higher-priced machines. They are designed and built to give you all the features needed for positive shrinking of polyethylene film.

Eastey's top-of-the-line bundling tunnels are expertly welded on 12 gauge steel frames and designed to handle the day-to-day abuse of most bundling applications. Each tunnel utilizes four-directional variable air flow to provide a positive shrink.

Models

ETB3012, ETB3020

Standard Features

Designed to seal polyethylene film All-welded main frame from 12 gauge steel 39" chamber length to ensure proper shrinking of film Dead roller conveyor Sealed bearings (not bushings) on drive and idler shafts Adjustable digital solid state temperature control for a variety of films Four-directional air flow provides positive shrinking Variable air flow for a variety of products and applications Large ducting creates more air volume inside tunnel Optional side plates (top and sides) for air flow patterning and quick changeover for different products Delayed cool down and over temperature protection Heavy duty casters for transportation within plant Leveling legs provide sturdy base once in place Custom two part epoxy finish resists scratching Available in 220v, single or 3-phase Easy to use design requires minimal training, maintenance, and trouble free operation Made in the USA

Please contact Pro Pac or call 888-318-0083 for your shrink bundling equipment.

Specifications of the Eastey Performacne Series Shrink Bundling Tunnels

Model	Machine Dimensions			Chamber Dimensions			Conveyor	Standard Power			Weight	Ship Wt.
