Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Low-Price High-Performance Shrink Bundlers with 25" Seals

The Eastey EB25A automatic shrink bundler provides you with all the quality features found in much higher-priced machines. The EB25A shrink bundler is designed and built to give you all the features needed for positive sealing polyolefin films.

Eastey automatic bundlers are expertly welded on 1/4" cold rolled steel frames and designed to handle the day-to-day requirements of the most demanding bundling operations. Each bundler utilizes two rolls of single wound film mounted on the same side of the machine and upper and lower power film unwind for ease of use. Eastey has been a leader in the shrink packaging industry for over 25 years.

Standard Features

Designed to seal polyethylene films

25" wide hot knife seal provides a consistent bulls-eye closure

Upper and lower powered film unwind for smooth feed of film

All-welded main frame from 1/4" cold rolled steel for durability

12" product pass-through height accommodates 11" tall products

Bases supplied with casters for easy transport

Reliable product transfer between infeed and exit conveyor

Soft start infeed and outfeed conveyors to reduce product shifting

Fixed lower seal bar provides a clean consistent seal and accommodates random height products

Automatic seal system with pneumatic hold for consistent pressure

Self-tracking conveyor belt and product indexing
 34.75" conveyor height
 Siemens PLC touch-screen with full color HMI
 Flexibility for fully-automatic or single product operation
 Small footprint, 61.5"L x 41.8"W x 71.3"H
 Durable custom two-part epoxy finish resists scratching
 25" max film width
 14" max film OD
 220V standard; optional 480V
 Requires 60 psi; 3.5 cfm
 Easy-to-use design requires minimal training and maintenance
 Made in the USA
