Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Single Roll Shrink Bundling Up to 60 Packages per Minute

Kayat SRX Series continuous-motion single roll bundlers can be configured to shrink bundle loose or trayed products.

Kayat SRX bundlers create shrink bundled bullseye packages by wrapping the product in clear or printed film. The Kayat SRX uses bottom overlap technology for strong seals and the ability to showcase printed film graphics.

Designed to handle a wide variety of packaged food and beverage products, the SRX Series uses a single roll of clear or printed film with speeds up to 60 cycles per minute. The SRX series has a robust, industrial design and provides easy access for operation and maintenance.

Features and Benefits

Toolless adjustable wrap bar assembly: Able to adjust machine for package height with no change parts.

Easy access fill feed and cut: Slide out the film feed and cut mechanism for easy maintenance.

Superior film sealing and control: Wrap-bar mechanism and integrated heat tunnel ensure reliability and high performance.

Adjustable tunnel side and bottom air: Easily adjust side and bottom air flow to create the most appealing appearance on the end product.

Dual roll film mandrels: Minimize changeover time and reduce packaging equipment downtime.

SRX-CUF

Designed to shrink bundle loose products in film with no supporting pad or tray. Will accommodate either print registered or clear film.

SRX-CTF

Designed to shrink bundle products already in trays with either printed or clear film.

Specifications

Speed: Up to 60 cycles per minute

Film width: 30" maximum

Film diameter: 20" maximum

Film types: Clear or print-registered

Construction: Heavy-duty welded tubular steel

Orientation: Right- or left-handed available

Option

Corrosion resistant construction for wipe-down environments

Package Sizes

	Height	Width	Length
Min	3" H	6" W	5" L
Max	12" H	20" W	12" L
