Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Affordably Shrink Bundle for Distribution or Retail

Whether its packaging your products with for distribution, or preparing a beautiful, eye-catching printed film package for retail sale, the Polypack Tango shrink bundler delivers top quality shrink packaging using a single roll of film.

Polypack's Tango shrink wrap machines produce bulls-eye wraps using either clear or printed shrink film running unsupported, pad-supported or tray-supported products.

These distribution and retail shrink bundling machines operate at speeds up to 20 wraps per minute single lane and up to 40 per minute in dual lane.

Polypack's Tango printed film shrink wrappers index product into an overhead flight bar assembly. The flight bars advance collated product in time with Polypack's patented film delivery system.

This shrink bundler is offered with various infeed options like inline, inline flood, and side infeed to best suit your packaging needs.
