Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Automatically Remove Shrink Film from Bundled Corrugated Trays

The Polypack Unwrapper automatic unpackaging machine removes shrink film from corrugated trays at speeds up to 35 packs per minute.

The Polypack Unwrapper is designed to help co-packers and producers automate their packaging lines and avoid occupational safety hazards when workers unwrap bundles by hand with open blades.

Upon exiting the Polypack Unwrapper machine, product is film-free and ready for the next step in the multi-packing process.

Keep Your Packaging Line Moving Fast & Faster

The Polypack Unwrapper machine automates precise removal of shrink film from corrugated trays, preparing product to be reorganized and repacked.

Ideal for multi-packing operations, the Polypack Unwrapper packaging machine reduces safety hazards while increasing line speed and productivity.

The Polypack Unwrapper changeover flexibility allows this machine to run a wide variety of tray sizes, matching the numerous product and pack sizes in the market. The stable nature of the system provides a foundation for safely running an assortment of product types ranging from tall bottles to round cans.

When combined with tray and shrink wrap equipment, co-packers and producers can create an automated multi-packing line.

Please [contact Pro Pac](#) or call 888-318-0083 for your shrink bundling equipment.
