Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Full Color Beer Cans with Low Minimum Order Quantities

Shrink sleeve labeling is a great marketing choice for craft brewers. Imagine having just the right number of branded cans for each of your special brews. Change your promotional message or label design with little turn around time and minimal cash outlay.

When you order pre-printed cans, order minimums can be greater than your actual needs and lead times can stretch to 12 weeks. Plus, you have to store all of those cans!

Tripack shrink sleeving systems offer new, innovative ways to label cans. Avoid high volume minimum orders and warehouse space required when purchasing pre-printed cans. Make your product stand out with a full body of high impact graphics and colorful shelf appeal.

Benefits of Shrink Sleeving

- Small quantity orders
- Just-in-time labeling
- Small batch / seasonal brews
- Reduced inventory space requirement

Features

- 35 to 50 cans per minute
