Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Simple, Durable Semi-Auto L-Sealers

Eastey Performance Series L-Sealers offer simplicity and durability needed to handle a variety of shrink packaging requirements at a cost-effective price.

Eastey Performance Series L-Sealers are expertly welded on 12 gauge steel frames and designed to handle the day-to-day rigor of demanding shrink wrap production requirements. Cast seal arms, stainless steel film clamps, and heavy duty dual magnet clamping are just some of the features that provide years of reliable durability.

Models

EM1622T, EM1622TK, EM1636T, EM1636TK

Standard Features

Designed to seal most polyolefin, polyethylene, and PVC shrink films

All-welded main frame from 12 gauge steel

Seal head casting equipped with head return cylinder

Stainless steel film clamps hold film in place while sealing

Available with hot wire or hot knife seal systems

Hot knife seal systems available with mushroom (standard), pancake, arrow, or poly inserts

- Dual locking magnet clamps apply even pressure across seal bar
- Adjustable dwell time for better seal control
- Analog temperature control adjustable for a variety of films
- Adjustable product tray accommodates wide variety of product sizes
- Takeaway conveyor can be raised or lowered to center-seal product
- Automatic takeaway conveyor with stainless steel mesh belting
- Heavy-duty film roll support and simple film loading
- Adjustable pin perforator provides air evacuation
- Custom two-part epoxy finish resists scratching
- Heavy-duty casters for transportation within plant
- Easy-to-use design requires minimal training and maintenance
- Seal size of 16" x 22" or 16" x 36"
- Maximum film width up to 19"
- Available in 110v or 220v
- Made in the USA
